

Graduate Assistantship To begin Fall 2026

Overview: The Florida State University Libraries, in partnership with the School of Information, invites eligible Masters and Ph.D. program students to apply for Graduate Assistantships in the University Libraries. The purpose of these assistantships is to provide graduate students with valuable, applied work experience that will enhance their classroom learning and their marketability to potential employers after graduation.

Areas of Concentration: One assistantship will be offered in the following areas:

GEOSET: The GEOSET Initiative & Studio at Florida State University Libraries is seeking applications for a graduate assistant that is looking to play an integral role academic media production at Florida State University. The GEOSET GA will work closely with Library and campus partners to develop impactful and innovative scientific videos, podcasts, and other media. They will lead and support the creation of educational media, livestreaming of campus events and symposiums, outreach to campus partners, support of library workshops, and development of the GEOSET web presence. This position offers the opportunity to develop media production and communication skills centered around scientific and scholarly research.

Position Duties:

Video and Audio Production

- Plan, record, and edit academic video projects
- Plan, record, and edit scholarly podcasts
- Manage on-location livestreams of university events
- Assist in management of GEOSET studios in Dirac Science Library

Web Design

- Assist with the GEOSET website and video hosting platform
- Develop and implement new website features
- Work with the GEOSET global team to reinvigorate the GEOSET web presence Outreach/Engagement
- Interface with campus partners to develop new media projects
- Support GEOSET workshops on media production topics
- Develop outreach and marketing materials and initiatives for the GEOSET Initiative

Opportunities

- Hone technical skills in media production and web design
- Lead creative projects to demonstrate skills to future employers
- Improve communication skills

Successful applicants must demonstrate the following skills and abilities:

- Ability to balance graduate coursework and work responsibilities
- Strong technology skills
- Familiarity with video and audio production techniques and technology
- Familiarity with the Adobe Creative Suite
- Strong communication skills
- Ability to develop and manage concurrent projects
- Familiarity with web design and information architecture principles

Due to the in-person aspect of this position, it is not designed for fully remote graduate students who do not reside in Tallahassee.

This position is not limited to School of Information students and is available to all graduate majors.
